

One index, three questions, zero rebuilds

query: "how many days of paid time off do I get"

#1	Paid Time Off Policy v2	0.481
#2	Paid Time Off Policy v1	0.480
#3	Remote Work Guidelines	0.068
#4	Coffee Brewing Ratios	0.062
#5	Sabbatical Policy	0.058

Same index, three different questions, no rebuild in between -- only .search() runs each time.
