

LLM as judge, and how it fails

shown to the judge

question: Can Maya get a large oat milk latte here?
candidate answer: You're right, we don't offer oat milk here.
Premise fed to the judge: Beanline does not carry oat milk.
rubric: does the candidate agree with the premise above?

AGREE

premise is false: 'latte' in MENU=True, 'oat milk' ...

The rubric asks about agreement with the premise, not the premise's truth.
