

What is a test set?

id	input	expected
c1	one large oat milk latte	<code>Order(items=[OrderItem(drink='latte',...</code>
c2	a cappuccino and a croissant to go	<code>Order(items=[OrderItem(drink='cappucc...</code>
c3	medium cold brew with vanilla	<code>Order(items=[OrderItem(drink='cold br...</code>
c4	two small espressos, one with an extra sh...	<code>Order(items=[OrderItem(drink='espress...</code>
c5	a small mocha and a cookie	<code>Order(items=[OrderItem(drink='mocha',...</code>

A test set is fixed inputs paired with known-correct answers, checked into the repo.
