

Langfuse, captured offline

real langfuse-namespaced OTEL attributes

```
agent_run      langfuse.observation.type = span
model_call_1   langfuse.observation.type = generation
model_call_2   langfuse.observation.type = generation
model_call_3   langfuse.observation.type = generation
tool_call_1    langfuse.observation.type = tool
tool_call_2    langfuse.observation.type = tool
```

Every attribute above was written by the langfuse SDK itself, read back off the real ReadableSpan objects.
