

Gluing model calls by hand

system

You are the barista at Beanline Coffee. Menu: drinks: latte \$4.50, cappuccino \$4.00, espresso \$3.00, mocha \$5.00, cold brew \$4.25. sizes: small +\$0.00, medium +\$0.50, large +\$1.00. extras: oat milk +\$0.75, extra shot +\$1.00, vanilla +\$0.50. food: croissant \$3.50, cookie \$2.75.

human

hi! what's good today?

glue #1: prompt by f-string

system = (

 "You are the barista at
 Beanline Coffee.
 Menu: {menu_board()}"
)

model.invoke([system, human])

Requirement 1 works: the menu is pasted into a system string by hand.
